Bas the Rio Gran Western Taken In the San Pete Valley ?

We hear the gentle rumor affoat that the superintendent of the San Pete Valley railroad has informed the employees of that road that it would be more healthful for them if they were looking for another job, giving as a reason that the road has passed into the hands of the R. G. W. How true this is, we know not; but judg-ing from appearances, we think there is something in it.

We understand that the Rio Grande road has been condemned over Soldier summit and through Spanish Fork canon, and that the company is looking for a more feasible

route.

All southern Utah is looking for a more feasible route.

All southern Utah is looking forward to the time when this little giant will change its roadbed and send its min trains thundering through the heautiful valleys of the most fertile counties of the territory.

Every more of the company seems to fix the opinion more firmly in the minds of the people that the road will take a course which will pass through this city. Many of the citizens here firmly believe that the new line will leave the resent roat at Santagin and run from there to Nephi, thence over the Sanpete Valley to Chester, then build a few miles of track to connect with present line, thence run over the Thistle, Salins branch to the latter place, thence east through Salina caron, where a roadbed has been graded for some time, thence on to Grand Junction.—Nephi Eprigm.

The annual meeting of the stockholders

of the Salt Lake City Railroad company was deid yesterday. The greater portion of the stock was represented. The only business was the election of directors and other efficers, as follows: R. C. Chambers, A. W. McCune, Francis Armstrong, W. P. Read and Spencor Clawson. A. W. McCune was re-elected president; R. C. Chambers, vice-president; Joseph Wells, secretary and treasurer; W. P. Read, superintendent. was held yesterday. The greater portion

THROUGH MANY WHISKERS.

Yesterday's Windstorm on a Regular Spring Spree-

The windstorm of yesterday cut up some fantastic capers. It blew through the whiskers of the rustic from Centreville whiskers of the rustic from Centreville and the Sait Lake policeman just allke. In the vicinity of Bountiful and Farmington and along the lake shore the gale was on a regular old bender. The waters of the lake, too, were whipped into billows of foam like those on a class of book beer. In that section the wind was trying to see how wanton it could be. One man from Lake Shore saic fout the reporter didn't believe him) that a person, could have walked dry shod from the mouth of the Jordan to within a few hundred feet of Antelope island, where the water was panked up in a solid wall.

The wind came from the east, but it did not do its best until it got beyond the Hot Springs. Then it spit on its hands and just swooped things. It kept on north on its mad career until it reached Ogden, where it lost courage and ran out of wind. No damage was done though several small bouses, barns, pig pees and hay stacks were overturned. It struck one 15-ton rick of alfalfa near Farmington and didn't leave enough of it to stuff a mattress in a 25 cent longing house, Hich's house and barn at Sughnaw beach were upset, but the buildings didnet suffer very much.

A CLOSE CALL.

A CLOSE CALL

Mr. J. P. Binize, an extensive real estate dealer in this city, narrowly escaped one of the severest attacks of pneumonia while in the northern part of the state during the recent blizzard. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to-get warm, and inside of an hour after his return be was threatened with a severe case of pneumonia or long fever Mr. Hluize sent to the nearest drug store and got a bottle of Chamberlain's cough remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Dea Moues. Mr. Blains recards his curs as simply wonder. ony was able to come to Des Moues. Air.

INTERESTING FACTS FOR

CLOTHING BUYERS.,

The woolen mills of this country are now making better fabrics, made of finer wool, and selling at any time in the fast twenty-five years. How can they do this? For the simple reason that in 1890 and 1891 the production of fine Australian and Cape of Good Hope wools was enormous, and these fine foreign wools have been selling in this country

cheaper than ever, to meet competition in the Amerfcan market. Foreign wool manufacturers have prices. All large buyers of woolens understand these facts.

It therefore "goes without saying" that we are able to offer to the public this season Spring Clothing of finer and better fabrics, at Lower Prices.

Come and investigate. See what elegant
